

Transition Checklist for Teens

This *Transition Checklist for Teens* is about the skills you need to learn to take care of your health when you become an adult. Your doctor or nurse will talk with you about the areas where you want help. Please complete this checklist by marking the box or boxes that describe you the best. If you do not understand a question, please ask your parent, nurse, or doctor for help.

Early Transition Skills: Age 13-14	YES, I do	NO, I will learn	Someone will need to do this for me	N/A, Will not be needed	Need more info
Do you wear or carry a medical alert (list of allergies, conditions)?					
Do you speak up for yourself in your doctor's office?					
Do you help make health care decisions with your family or doctor?					
Do you see your doctor without your family/parents in the room?					
Do you know how to describe your own health conditions/disabilities and do you know how they affect your daily life?					
Do you know how to maintain a healthy lifestyle (diet, activity, etc.)?					
Do you understand how smoking, drinking, and/or using drugs can affect your condition (worsen symptoms, react with your medicines)?					
Middle Transition Skills: Age 15-17					
Do you know your rights to keep your health information private?					
Do you call your doctor(s) on your own if you have a problem?					
Do you know how to schedule your own doctor appointments?					
Do you know the names of your medicines and why you take them?					
Do you know what can happen if you skip your treatments or medicine?					
Do you know how your condition affects sexuality (the need for closeness, caring, and touch, sometimes involving sexual activity)?					
Do you know what you'll do for birth control, safe sex, and reproductive concerns (genetics, pregnancy)?					
Do you know how to use your health insurance benefits (co-pays, referrals)?					
Do you know what you will do after high school (job, more school, recreational options, volunteer, etc.)?					
Do you know of resources that can help you to find adult services (job support, transportation, assistive technology, etc.)?					
Do you know how your condition might affect your job choices?					
Late Transition: Age 18 and beyond					
Do you have an updated portable medical summary and/or care plan?					
Do you have an adult doctor (or a doctor for while you are at college)?					
Do you almost always take your medicines correctly on your own?					
Do you know when and how to fill your own prescriptions (knowing who prescribed and where to call, getting refills on time)?					
Do you use and take care of your own medical equipment and supplies?					
Do you know when to call for routine checkups, urgent care, and when to go to the emergency room or call 9-1-1?					
Do you know who to call for questions about your insurance coverage?					
Do you know how you will maintain health insurance as an adult?					
Do you know what government benefits you might qualify for (SSI, SSDI, Health Benefits for Workers with Disabilities, Home & Community Based Services, etc.)?					
Do you know about guardianship or power of attorney for health care?					
Do you know your options for housing as an adult (on your own, group home)?					
Do you know how to manage your money and pay your bills?
